Description

The "Brailen" bar stool is efficiently crafted of a striking wood/metal combination that is like no other. The back design features an intricate embellishment that is also found beneath the 360 degree swivel seat. The seat is generously cushioned ensuring supreme comfort as well as upholstered in striped ivory upholstery that adds to the stylish effect and inviting vibe that is emitted by this bar stool each and every time it is utilized. With the patent pending Leg Extension System, the height of this stool can be quickly and easily transformed between counter or bar height. This stool ships with Counter Stool and Bar Stool extensions in the box and by simply changing extensions you can change the height of the stool. No need to decide on which height is right for your counter or table with this patent pending design. With the unfailing dependability, gorgeous appearance, and limitless comfort of the "Brailen" bar stool by Ashley Blaire Company you are guaranteed to be satisfied with your decor for many years to come.
